OIL & ENERGY

OIL & ENERGY INDUSTRY

The oil & energy sector is an industry prone to high risks for obvious reasons. Wavesys offers a unique range of security surveillance solutions customised for the hazardous and restrictive environments specific to the oil and energy industry. Our experts strategize and execute the best solutions for the industry's needs involving the best brands of cameras and applications.

SUREVEILLANCE FOR THE INDUSTRY

1 VISION & MOTION DETECTION

The vision and motion detection solutions can help in deterring theft and vandalism. The motion sensors also help in instant detection of thermal activity beyond a certain limit

2 WIRELESS, EXPLOSION PROOF SOLUTIONS

The non-traditional wireless explosion proof cameras can help companies to keep a close watch on the leaks and other potential threats like a spark or explosion

3 NIGHT VISION

Our products with the night vision feature offer clear vision even during the darkest hours of the night

HOW THE INDUSTRY CAN BENEFIT FROM WAVESYS PRODUCTS

4 BETTER INSIGHT INTO THE SITUATION

The network of cameras gives a clear view of every corner of the site eliminating the chances of slip ups.

5 READY AVAILABILITY FOR INVESTIGATIONS

Our cameras offer clear picture and video insights that can help investigators resolve any major security incidents efficiently and easily.

6 INCREASED SAVINGS

We use the cameras that are the most effective with expansive coverage of the location to offer highest cost savings.
