

SEGMENT: INDUSTRIAL

INDUSTRIAL

The industrial sector is a sector tinged with risks and hazards given the nature of the operations and the substances. Inclusion of the apt camera surveillance is a need that cannot be ignored because human eyes can miss a flaw, but a camera never would. Wavesys assures the best of products and services that are versatile and safe.

SUREVEILLANCE FOR THE INDUSTRY

1 OPERATION MANAGEMENT

The intricacies of the industrial sector are challenging and demand constant attention and vigilance which in a lot of cases is beyond human control. Camera surveillance and vigilance can not only offer the necessary vigilance but can also be a great source of training.

2 GENERAL SURVEILLANCE

Keeping tabs on the people, vehicles and material entering and leaving the premises, monitoring the work process is the very basic but extremely crucial aspect that needs not just human eyes but the camera eyes too.

3 MATERIAL MANAGEMENT

Material management may include an eye on the material handing, material pilferage and any other aspect that risks the material and people working with it.

HOW THE INDUSTRY CAN BENEFIT FROM WAVESYS PRODUCTS

4 RELIABLE CYBERSECURITY TOOLS

The network of cameras gives a clear view of every corner of the site eliminating the chances of slip ups.

5 INVESTIGATIONS MADE EASY

Our cameras offer clear picture and video insights that can help investigators resolve any major security incidents efficiently and easily.

6 HIGHER SAVINGS

We use the cameras that are the most effective with expansive coverage of the location to offer highest cost savings.
